Manufacturing Engineering Technology Graduate

Manufacturing Engineering Technology graduate with a concentration in Mechatronics from Tennessee Tech. Hands-on experience with PLCs, embedded systems, CAD modeling, automation systems, CNC machining, and industrial electronics. Seeking an entry-level manufacturing, automation, controls, or process engineering role.

Engineering Projects

Senior Capstone Project – Cyclist Safety Alert System

- Designed and developed a cyclist safety alert system intended to improve cyclist visibility and reduce risks caused by distracted drivers
- Integrated automation and control concepts to create brake-light-style visual alerts for motorists during low-light conditions
- Developed a flashing warning system that activates when vehicles approach cyclists at unsafe speeds
- Applied mechatronics principles involving sensors, embedded systems, and electrical control logic
- Designed and tested prototype components using CAD and embedded control concepts

CAD & Automation Projects

- Developed 3D models and assemblies using SolidWorks and Fusion 360
- Programmed Arduino and Raspberry Pi systems for automation and control applications
- Applied CNC machining and manufacturing principles in laboratory environments

Technical Skills

Software

SolidWorks, AutoCAD, Fusion 360, KiCAD, Arduino IDE, RoboGuide

Programming

PLC Programming, Arduino, Raspberry Pi, Embedded Systems, Sensors & Controls, C++

Manufacturing

CNC Machining, Manufacturing Processes, Inventory Management, Forklift Operation (Certified)

Education

Tennessee Technological University | Cookeville, TN | May 2026

Bachelor of Science in Manufacturing Engineering Technology, Mechatronics Focus

Relevant Coursework: Mechatronics, Industrial Electronics & PLCs, CAD, Machine Automation

Work Experience

McDonald's - Crew Member | Cookeville, TN | 11/2025 - 4/2026

- Worked in a fast-paced team environment while maintaining operational and quality standards

Academy Sports and Outdoors - Receiver | Cookeville, TN | 07/2024 - 10/2025

- Managed inbound freight, inventory organization, and product distribution in a high-volume environment
- Operated material handling equipment safely and efficiently
- Maintained inventory accuracy and supported logistics operations under tight timelines

Lowes - Garden Shop Sales Associate | Spring Hill, TN | Summers 2022 & 2023

- Assisted with inventory movement, stock replenishment, and outdoor product organization
- Loaded landscaping materials and operated forklifts/material handling equipment safely
